

SPSO decision report

Case: 201808763, Scottish Prison Service
Sector: Prisons
Subject: behaviour related programmes (including access to)
Decision: not duly made or withdrawn, no recommendations

Summary

C complained on behalf of their spouse (A) regarding the lack of support the Scottish Prison Service (SPS) provided in relation to assisting A to participate in an offending management course, specifically that they needed a translator to assist them. During our investigation, SPS apologised to A for the delay in matters related to their management. A was reassessed and a decision was taken that they did not require to complete the course. C then withdrew the complaint.
